Aj Ty v IT

We teach girls to **love IT**

We help little and big women discover the magic of technology

We provide education, motivation and a kick-start in the world of **IT careers**

Petra **KOTULIAKOVÁ**

Founder of Aj Ty v IT 💬 too in IT")

"We started the project in 2012 as a reaction to a very low percentage of girls studying at faculties of technology." Today, Aj Ty v IT is a nation-wide civic association. I always love seeing the excitement of discovering new opportunities in the eyes of girls and women and I believe IT opens doors to such opportunities. I am sure that our education program will give them the necessary tools to succeed in a world of IT which is still dominated by men."

We do courses **for girls at primary** and secondary schools and for adult women.

We **break stereotypes** about women in IT.

We **interconnect** our **graduates** with **technological companies**.

We **build a community** of women in IT*.

*Men are also welcome :)

The problem

Unequal approach to education in the field of IT for women

Lack of experts in various fields of technology

Today only 13 % of workers in the IT sector in Slovakia are women

The objective

Our objective is to see 40% of female workers in the IT sector.

What we have achieved

SINCE 2012

12 000 — girls and women participated in our education programs

350 — workshops and events

5 100 — secondary school girls visited 360 companies on Girl's Day

7 — Frida Talks Tech in Bratislava and Košice

Our activities

GIRL'S DAY
A day when girls aged 15-19 can sneak
a peek into the world of IT companies

MEET THE FACOOLTY OF IT:
The best way to shake off the fear of studying
at a technological school is by visiting it.

CODING CLUBS
Each month we come up with a new topic
for building IT skills.

PROGRAMING ACADEMY:
Long-term courses for girls and trainings
for teachers who are interested in a different
approach to teaching information technology.

The youngest ones

OZOBOTS
The basic principles of logic
using pen and paper

LEGO ROBOTS
Understandable and playful
approach to programming

SCRATCH
Visual programming language
perfect for the first attempt at coding

PROGRAMING ACADEMY
Programming courses
with micro:bits at schools

Adults

**LONG-TERM COURSES AS A PREPARATION
FOR JUNIOR IT POSITIONS:**
Women Tester Academy
Women Data Academy
Women Python Academy
Women Automation Academy

SHORT-TERM COURSES
SQL, UX Design, Design Sprint,
Project management

FRIDA TALKS TECH
Providing inspiration through interesting
female speakers from the IT field and creating
networking opportunities for men and
women from the world of IT.

We will also happily come to you

Join us

Became a trainer

Teach girls to love IT

- **We are looking for trainers- volunteers** in Slovakia.

- Together we will figure out the **topic and intensity** of your involvement.

- **You will gain new experience** and improve your training skills.

- You will work with a **group of 10-15 talented women** and girls.

WORKSHOP EXAMPLES:

Lego robots, Scratch, micro:bit, the basics of HTML, CSS, Javascript, Python or Wordpress

Give us a donation online or donate 2 % of your income

HELP US EXPAND THROUGHOUT SLOVAKIA

You will find all the necessary information at

www.ajtyvit.sk/darujem

Technology is the future.
Your donation can also help change
the future of girls.

Thank you!

Become our partner

WE WILL PROVIDE YOU WITH A CUSTOMIZED OFFER

Financial support

- **Support financially** our educational activities throughout Slovakia.

- **Donate 2 %** of your income tax.

- **Become a partner** for our events for adults.

Invite girls and women to your company

- **Join the Girl's Day** initiative and show girls what IT looks like in your company.

- **Offer** jobs, internships or mentoring programs and we will organize workshops together.

Have you thought of another form of cooperation?
Contact us at **info@ajtyvit.sk** and we will figure it out together.
